1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 1-44 are rejected under 35 U.S.C. 102(e) as being anticipated by Maguire, Jr. (US Patent No. 6,411,266).

Maguire discloses a mixed reality apparatus for allowing a player to experience mixed reality by making the player visually confirm a mixed reality space obtained by mixed a real space and virtual space, comprising: detecting means (18, Fig. 1) for detecting a location/posture of predetermined portion of the player; and virtual space image generation means (22) for rendering a virtual object to be superposed on the predetermined portion on the basis of the location/posture of the predetermined portion detected by the detection means, and generating a virtual space image (see Figs. 1-4, col. 33, line 66 to col. 6, line 20). Further, Maguire discloses a head-mounted display (28, Fig. 1). Also, Maguire discloses real space and a virtual space coordinate relationship between the viewer and the real object and virtual object. The coordinate system includes parallel lines.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The US Patents 5,394,517, 5,796,991, 6,084,557, 6,151,060, 6,441,815 are cited to teach combining both real and virtual environment display system.
